CHECKPOINT SYSTEMS EAS ANTENNAS

# ADVERTISING PANELS

*Promote your merchandise... while protecting it!*

Fully customizable advertising panels can be easily and seamlessly integrated into Checkpoint Systems range of antennas. You can effectively display merchandise information, promotions and other marketing initiatives to consumers from the very moment they enter the store, without taking up additional floor or wall space. Create advertising panels as needed and insert them into the antennas, changing them as often as required to meet in-store marketing objectives.

**Advertising Panels are available across a wide range of Checkpoint Systems EAS antennas.**

*Please contact your local Checkpoint representative for more information.*
