D-Tech eVendit™ Laptop Self-Service Vending System

The eVendit™ from D-Tech is multi-bay modular locker system designed to store and dispense laptops and other similar devices. Individual user bays are the optimum size to store most makes and models of laptop, netbook, PC tablets, iPads, and eBooks; and offer a safe charging environment for access by users of all ages.

Available from 12 bays, the eVendit™ modular locker system can be tailored to suit the library's needs. With its steel chassis and doors, the eVendit™ is an extremely secure centralized location to vend your valuable mobile PC's, which provides effective theft prevention and frees staff for other duties.

The eVendit™ is available with a range of charging options as well as your choice of colors. With full independent CE and UL Certification, power to the eVendit™ is entirely safe for student/patron use and is fully temperature controlled to ensure all devices are kept cool during the charging process.

Features:

- Safe charging and secure storage
- Suitable for laptops, netbooks, tablet PCs or any device charged with AC adaptor
- Available from 12 to 96 number of lockers
- Library Card Barcode, Biometrics, or RFID can be used for access.
- Network compatible for Data Transfer, updates and anti-virus (optional)
- Thermostatically controlled temperature management system is standard
- LED charge status indicators
- Connection to ILS via SIP2
- Meets all required Safety Standards and is fully CE, UL Certified.
